## The Ypsilanti Commercial.

PUBLISHED WEEKLY, BY  
C. R. PATTISON.

## EDITORIAL NOTES.

Last Friday morning we took the cars for a tour to Chicago, by the way of Milwaukee and Racine, Wis. It is always pleasant in the cars between here and Detroit, for we never fail to meet Ypsilanti friends of a social turn. Unwisely, as we think, the Detroit & Milwaukee Road makes no calculation to allow passengers that reach Detroit at half past ten on the Central, time to transfer themselves to their depot and take the train that leaves at the same hour on Detroit time. We were warned that it was exceedingly problematical whether we could fetch it or not. Hurriedly leaving the car and reaching the street, we glanced about for a hack but none was in view—to take the horse cars would be a sure failure, so avoiding the theory that the longest way round is the shortest way home, we made a straight cut for the other depot. Umbrellas in hand, we shouldered our satchel and trotted on. Little feet made quick steps by our side, pat, pat, on the sidewalk, running on ahead of ours, buoyant at the prospect of a trip with Pa across Lake Michigan. Our eldest, a little daughter, was with us. Parents, take your children when you can. A journey as an educator is frequently worth three months' schooling. Well, we did come it, but it was a tight squeeze, scarcely a hair's breadth between us and being left behind. In a trice we were on the hindmost platform, and away flew the train. We took a little time to gather up our breath, and by this time we were in the country. The crops claimed our attention. Between Detroit and Pontiac they have a fine look. In several fields the mower was already at work, cutting down a fair growth of grass. Corn not much ahead, but looking black, rich, and healthy. So with the oat and wheat crops. Wheat bids fair. Between Pontiac and Grand Rapids, with the exception of a few scattering localities, the appearance is not flattering, nor especially discouraging. Between Grand Rapids and Grand Haven the wheat crop looked splendidly. We conversed with a gentleman who had traversed the northwestern counties of the State, and he told us that the wheat crop there is splendid—never better. Returning to our excursion. The first place of any importance is Pontiac. This is a city about the size of our own. Having resided in this town some length of time, we took peculiar interest in pointing out the house of worship and objects of attraction. The next point is Holly. This place is likely to become famous for the railroads centering in it. The Saginaw road has already given it a big start. We counted nineteen dwelling houses in process of erection, and no doubt there are others out of sight. Fentonville and Cornum seem to be holding their own. Owosso retains its primitive beauty. For some years the residence of our boyhood days, we naturally recall the pleasures of that period. Here were spent some of our happiest hours. It is the Kalamazoo of the Detroit & Milwaukee road. St. John's is evidently growing. Ionia is quite a town. The spires of Lyons are seen in the distance. Lowell is out of sight. Grand Rapids, the second town in the State, is too far distant to see its main business blocks. But judging from what we saw, it is destined to become a town of greater magnitude. Here are the grand plaster deposits. More passengers left here than at any other point. The next town of any importance is Grand Haven, 188 miles from Detroit. This is the mouth of Grand River. At Lyons we saw this stream largely increased by the addition of Maple River. At Grand Rapids it swells into a fine river and at Grand Haven it is worthy of the name Grand River, the largest interior stream in the State. The village is probably a place of about two thousand inhabitants. Here on the Lake shore are vast hills of sand. Shielding the village and harbor from the bleak west winds that blow from Lake Michigan, they are invaluable. The Steamboat Milwaukee, forming one of the line of the Detroit & Milwaukee Co. was waiting to receive us. This boat and another similar to it are built after the model of Ocean Steamers—240 feet long, 34 feet beam, 880 tons, new measure, engines 1000 horse power, Low pressure. The gentlemanly Purser, Mr. Edward Wiles, took us below after we were well out into the lake, and showed us the workings of the engine. As steadily and beautifully as the beatings of a healthy human pulse, under the complete control of the skillful engineer, operated the machinery, polished in every part exposed to the eye, so as to give back a perfect reflection of the countenance. Many years have these Steamships plied across the Lake, and never yet has any accident occurred. From the first of June until the middle of October no pleasanter route to the west can be found. It is really a relief to the tedium of the cars to be able for a night to transfer oneself to the magnificent and comfortable State-rooms of one of these boats. The distance saved is one hundred miles, as well as \$3.00 fare from Detroit to St. Louis and kindred points. The travel over this route is rapidly increasing, both by parties for business and pleasure. In the late Fall, Winter and early Spring, a large amount of freight is conveyed over this route, as well as in the Summer, for points west. A beautiful moonlight night, we watched with intense delight the bold bluff shores of Michigan. Scarcely a ripple upon the lake, the passengers all enjoyed the change from the cars to the boat and the enchanting breezes. We found in Capt. Trowell, a suggestive name, a gentleman who was unceasing in his efforts to contribute to the comfort of those intrusted to his care.

(On account of the illness of the editor, the remainder of this article will be deferred until next week. This will also account for all other deficiencies.)

## CURRENT EVENTS.

The President made a virtue of necessity, and sent the Constitutional Amendment to the Governors of the several States, but at the same time tells Congress that it does not receive his sanction. —Gov. Brownlow has been petitioned to call an extra session of the Legislature in order to pass upon the amendment, and it is believed that members from Tennessee will be admitted immediately if they ratify it. —Another characteristic nomination of the President's is that of Provisional Governor Johnson of Georgia as minister to Venezuela, which is to be followed, it is said, by several others of the same stamp. If they cannot take the test oath, which is doubtful, they of course cannot be confirmed by the Senate. —A call has been issued for a Convention of the supporters of "My Policy" to meet at Philadelphia, August 14th. —The firing of the first gun is momentarily expected in Europe. Italy is about throwing 40,000 men across the Po into Venetia. The Prussian force is nearly 800,000. England favors the cession of Venetia. The entire Austrian force has been withdrawn from Holstein, but the latest dispatches say she will commence war immediately. —The Liberal cause in Mexico looks brighter. It is said Maximilian will run for the Presidency when he finds he cannot longer be called Emperor. It is stated positively that all the French troops will be withdrawn the present season. Santa Anna has conceived a brilliant plan for restoring peace (?) to his native country and getting himself into power again. He wants the United States to furnish him a million dollars and three thousand men, with which he promises to accomplish all this, and for which he will swear eternal gratitude to this nation. The Mexicans can do very well without this weathercock to tell them, which way the wind blows. —New York Day is at last entirely free from cholera. —David Quinn, of Chicago, has published a pamphlet addressed to Congress advising the re-establishment of slavery, giving some ridiculous arguments, such as that men are divided into species and have different natures; that the negro finds his civil liberty in his slavery, and that the white man undergoes a change in America that renders slavery essential; that the French in Canada and the Spaniards in Mexico have degenerated, and that the native people of the Northern United States are now three inches less round the chest than the Europeans. —The Connecticut Senate ratified the Constitutional Amendment at midnight on Monday. The House was to immediately concur. Good for Connecticut, the first ratification! The latest European dispatches tell us that the war is inaugurated. Prussia marched troops into Saxony and Hanover on the 16th, and it is rumored that a battle was fought the same day. Russia's forces are on the move, and she is ready to abandon her neutral position on the slightest provocation. Gold, 152 1/2.

A monument has just been erected over the grave of the late Hon. Owen Lovejoy, in the beautiful cemetery at Princeton, Ill. It is a plain structure made by four large blocks, the marble shaft weighing three and a half tons, and resting upon a cube supported by two square bases. On the upper one is the name "Lovejoy" in high relief. On the front side the cube contains the name and year of the deceased, and various other inscriptions of members of the family, by whom the monument was erected.

It is reported that 40 members of Congress have united in a request to Gov. Brownlow of Tennessee to call an extra session of the Legislature to vote upon the Constitutional Amendment.

OUR COUNTRY AND HOME MISSIONS. —More than three-quarters of all the territory over which our national flag waves is to-day missionary ground, and more than half of the other quarter. If our wide domain, from ocean to ocean, from the Northern Lakes to the Rio Grande, shall ever enjoy the blessings of a godly, enlightened ministry; if most of its present and countless future millions shall become true worshippers of God, these momentous results must be effected, under God, in Great part, by the Home Missionary enterprise. The success of this enterprise is indispensable to the perpetuity of our republican government and institutions.

It is only a few years since Mr. Magoon published his "Living Orators of America," in which he assigned a distinctive appellation to each of the then most celebrated orators, the last of whom, Gen. Cass, died on June 17th. He called Mr. Webster the logician (died 1852); Mr. Everett the rhetorician (died 1865); Mr. Clay the politician (died 1852); Mr. Calhoun the metaphysician (died in 1850); M. McDuffie the impetuous (died in 1851); Mr. Cass the courteous (died in 1866); Col. Benton the magisterial (died in 1858); Mr. Preston the inspired declaimer (died in 1860); and Mr. Corwin the natural orator (died in 1865).

INTERNAL REVENUE.—The receipts of internal revenue on Saturday were \$483,328 73; for the week ending yesterday, \$3,924,323 65. The aggregate for the fiscal year promises to reach, without doubt, the round sum of \$310,000,000, and of revenue from all sources, \$540,000,000.

CONNECTICUT is the first State which has ratified the Constitutional Amendment. As her Legislature has been freshly elected on a direct issue between the President and the Radicals, as the "Democratic" candidate English was endorsed by him, the stupid cry of the Democracy and Johnson about passing it without ratifying it to the people will be as "the cracking of thorns under the pot." —Post.

SOLE AGENTS for Michigan for the sale of the celebrated

EAGLE GAS STOVES & RANGES  
AMBROSE' PATENT  
KEROSENE OIL COOK STOVES,  
AMBROSE KEROSENE LAMPS  
of all Descriptions,  
and the  
ATMOSPHERIC COAL OIL LAMP

The EAGLE GAS STOVES AND RANGES will do anything any coal or wood stove does, and do it with less trouble, less expense and less time. The HEATING STOVES will heat Offices, Parlors, Bed-rooms, Bath rooms, &c. They can be connected with the ordinary gas pipe at slight expense. The KEROSENE COOKING STOVES will do all kinds of cooking, heat flat irons, &c., and can be used for all mechanical purposes. They burn pure kerosene oil out of the Ambrose Patent Burner, and there is no danger attached to their use. They have been introduced in the West for over a year, and are much liked. Both the Gas and Kerosene Stoves are so constructed as to radiate but little heat, thereby affording great comfort in their use during hot weather.

The prices range from \$2.50 to \$20.00. The AMBROSE PATENT KEROSENE LAMP is used by all railroads leading out of New York, and several out of Chicago, and by thousands of private families all over the country.

The ATMOSPHERIC COAL OIL LAMP burns without globe or chimney, does not smoke or smell, uses less oil and gives a clearer light than any Kerosene Lamp now before the public. A large number of testimonials from all over the country, can be seen by any one interested. Full descriptive catalogues sent to any address on application. All orders will receive prompt attention. 3m122

AMERICAN COOKING STOVE!

Is manufactured with certain improvements secured by letters patent, under date of May 5, 1863, and December 5, 1865. One of these improvements covers the arrangement of fitting a portable ash pan in the hearth of a Cooking Stove, to receive the ashes as it passes down from the grate. All persons are cautioned against manufacturing, vending or using other Stoves made in imitation of the AMERICAN, as suits have been commenced for infringement of these patents, and all persons manufacturing, selling or using said imitations, will be liable for damages for infringement on these letters patent.

SHEAR, PACKARD & CO.,  
17 and 19 Green St., Albany, N. Y.  
The AMERICAN is for sale by Bickford & Camp, Ypsilanti. 3m122.

Sundays.

**New Advertisements this week.**  
Letter List.  
Eagle Stoves—S. W. Johnson & Co.  
American Cook Stove—Bickford & Camp.  
New Millinery Store—Mintonye.  
Strayed—W. S. Potter.  
Strayed or Stolen—Heman Drury.

**Our Schools.**  
The Normal School closed on Wednesday  
of this week. The only exercise was a lec-  
ture before the Lyceum, by Prof. J. M. B.  
Sill, treating of Teaching and instruction in  
all its branches. It was extremely interest-  
ing, but thinly attended.

The Union School also closed this week.  
The graduating exercises were so long and  
so good as to necessitate the occupation of  
two evenings, Thursday and Friday, a twenty  
cent admission fee for each evening, and  
the consequent omission of the usual detailed  
report in this paper.

The Union and Normal choirs, together  
with all the rest of the musicians engaged,  
went to Jackson on Wednesday to repeat the  
Oratorio of Queen Esther. The Hall, one of  
the largest in the State, was filled to reple-  
tion, in spite of a circus and a prospect of a  
wet evening. They had a good time gener-  
ally.

The East District School House is nearly  
completed, and bids fair to be a tasteful build-  
ing. It is hoped that it will be ready for oc-  
cupation next Winter.

Normal Chapel, June 30th, 1866.  
Whereas: In the all-wise and just provid-  
ence of God, Miss Josephine Young, an ac-  
tive and respected member of this Lyceum,  
a former student and graduate of the Nor-  
mal School, has been removed by death from  
the midst of her relatives and friends; there-  
fore,

Resolved—That we as a society lament the  
loss of a loved member, whose nobleness of  
moral and intellectual character has enlisted  
our warmest feelings of love and respect.

Resolved—That as a society we unani-  
mously express our sorrow that one so de-  
voted to the true interests of society, so well  
prepared to act in the teachers mission,  
should be so prematurely called to try the  
realities of another world.

Resolved—That we truly sympathize with  
the afflicted relatives, and will ever cherish  
the memory of the departed one.

Resolved—That these resolutions be pub-  
lished in the Ypsilanti Commercial, and a  
copy of the same be transmitted to the friends  
of the deceased.

BELLE WIDNER,  
ELIZA P. STEWART,  
FRANCES E. BACON,  
Committee on Resolutions.

## Casualties.

Harvey Crosby, ex-devil in our office, was  
thrown from a wagon near the depot, by the  
sudden starting of the horses, on Monday  
afternoon. He struck on his face between  
the wheels, the hind wheel turning him over  
several times and finally passing across his  
body from the shoulder to the hip. One of  
the small bones of the cheek was broken and  
several bruises received about the head and  
face, but strange to say, he was not otherwise  
seriously injured. All agree in saying that  
it was a narrow escape for his life.

Mr. Mosher, a resident of the town, while  
driving home on Tuesday, was thrown out of  
his buggy a few miles north of the city, and  
his arm broken. He was driving a colt, and  
becoming frightened, it started to run. We  
have not heard whether any farther damage  
was done.

The city is engaged in improving the alley  
running in the rear of the north side of Con-  
gress Street, which is very commendable, but  
it seems to us that when an excavation is  
made across a public sidewalk, as is the case  
on the junction of the alley with Huron St.,  
it should be covered during the night and  
when the men are not working on it. On  
Wednesday evening, a lady passing along  
the walk suddenly found herself about two  
feet (and their appurtenances) in mud and  
water. The only injury she sustained was  
that of soiled clothing, but on the following  
morning a Mr. Boyce fell at the same place  
and broke his wrist. Being an invalid, it  
gave him a terrible shock, but he is now do-  
ing well.

## Amusements.

The Mendelssohn Quintette Club, from  
New York, are to give one of their Musical  
Soirees at Hewitt Hall, on Wednesday even-  
ing next. This Club is composed of some of  
the most popular Artists in the country and  
are being well received throughout the State,  
Admission fifty cents.

Haight & Chambers' Circus is to be here on  
Monday. They aim to please the Circus go-  
ers. Performance afternoon and evening.  
Admission fifty cents.

The belief is that Ypsilanti, his wife and  
children, will all "go to the Fourth" at De-  
troit. The M. C. R. B. Co. advertise to take  
celebrators at half fare. "Passengers carry-  
ing baggage will be considered as travellers,  
and charged full fare"—so those who take  
along their "bread and dinner" must put it  
in their pockets or into very small compass.  
The colored citizens are making great  
preparations for amusements. A Masonic  
feast on the Fourth, and a grand celebra-  
tion of Emancipation Day (1st of August)  
are on the tapis. A fair was held on Thurs-  
day for the benefit of their Baptist Church,  
resulting in the receipt of \$100, which will  
be devoted to paying off their indebtedness.

## For July.

Harper, Peterson, Godey, Atlantic, and all  
the other monthlies for July, as well as the  
leading literature of the day, can be obtained  
at Coleman's News Depot, near the Follett  
House.

## J. Dempster Town.

We clip the following complimentary notice  
from the Jackson Patriot. We congratulate  
Mr. Town on his success. He is certainly  
gaining an enviable reputation as a  
musician, and we hope his concerts will all  
prove as successful as the one noticed. We  
trust that before leaving us he will repeat the  
entertainment given some weeks ago here,  
and which, owing to the short notice given,  
was not as well attended as its merits de-  
served.

"PROF. TOWN'S CONCERT.—A large audi-  
ence attended the concert of Prof. Town and  
Mlle. Orsini on Friday evening. The enter-  
tainment was very pleasant. Mlle. Orsini  
sang charmingly. Possessed of a voice of  
unusual compass and power and silvery  
sweet on the high notes, she easily and mod-  
estly wins what affectionate attention repels—the  
admiration and appreciative attention of the  
audience. She can hardly fail of becoming  
a favorite wherever she goes. Prof. Town's  
solos were executed artistically and in the  
best taste. "The Song of the Bell" and  
"Sweet Home," of his own composition, are  
very creditable productions. While Prof.  
Town assumes neither the power or brillian-  
cy of Weill, his touch is elastic, delicate and  
expressive, and at once places him in sym-  
pathy with his hearers. We understand that  
the two Artists contemplate a tour down the  
Mississippi. We hope they will receive the  
attention which true merit deserves."

Dr. PALMER of the University will speak  
at the Presbyterian Church next Sabbath eve-  
ning on the Injurious Effects of Alcoholic  
Drinks.

## MARRIED.

LOWNSBURY—EARL.—On Thursday, the  
21st inst., by the Rev. G. P. Tindall, Mr.  
C. W. Lownsbury and Miss Sarah T. Earl,  
all of this city.

A soft or green Quaker would be as  
great a curiosity as dissipated Hebrew;  
but not so great a one after all as to  
find the woman who does not prefer the  
J. Monroy Taylor Gold Medal Soap to  
any other in the world can produce. Wife  
says it makes old clothes look as  
well as new, and a cross man the pleas-  
antest and most lovely creature on the  
globe. Try it, and, our word for it,  
you will always patronize the Gold  
Medal Soap.

FARM & HOUSEHOLD.

NOTES IN FURNITURE.

There are two species of moths

which infest furniture. One is a large

fly, of silvery white color; the worm

is of the same shape like a chestnut

small fly of a dark drab color; the

worm is about one fourth of an inch

long, and tapering from the head to

the tail. It was first observed by

upholsterers about seven years ago.

This fly penetrates a sofa or chair generally

between the back and seats of sofas, or

under the seats where the vacuum

among the springs affords a safe retreat.

It may make a lodgment in one week

after the furniture is placed in a house.

If such should be the case, in two

months the worm will appear; and the

continual process of procreation in a

few months increases the number to

thousands. The moth has no season.

It destroys in winter and summer alike,

as it is kept in active life by the

constant heat of the house. We find at

the same time in the same piece of

furniture, the fly, the worm and the eggs

—thus showing that they are breeding

and destroying all the time. It does

not eat good, pure curled hair, but

fastens its cocoon to it, the elasticity

of which prevents it being disturbed.

MEDICAL.

GOOD NEWS AT LAST!

LET THE AFFLICTED READ!

And learn that a perfect and radical cure is warranted

and guaranteed to all who are afflicted with weakness,

debility, nervous complaints, indolent thoughts, de-

pression of spirits, distress and anguish of mind, loss of

sleep, loss of memory, loss of energy and muscular power,

pusy growth, wasting away, and a want of confidence in

themselves, fainting fits, convulsive tremblings, im-

potence and disgust of life.

HEAR WHAT THE MEDICAL PRESS

SAYS.

Some physicians require to be told the nature of your

disease—the ENGLISH BOTANIC PHYSICIAN does

not. His perfect knowledge of the human system enables

him to describe the disease and its nature, and to guarantee

its cure. And what is more valuable still, he will hon-

estly and faithfully tell whether you can be cured or not.

This will satisfy your mind, and save you expense, time,

trouble, and disappointment. It will be to you, you will

save you many a dollar, and will save your life from

being shortened.

His examinations are made without any information

from the patient; therefore he thoroughly understands

their physical condition and the progress of the disease,

without which he never could have performed so many

astonishing cures. It should be remembered by all

that the ENGLISH BOTANIC PHYSICIAN does not

only give good health, but also, if you wish, you will

consult DR. RAPHAEL, the Botanic Physician.

All his communications and interviews are strictly
